*We will provide your pet reasonable and professional care and make every effort to establish a pleasant visit for your pet. Some pets, especially seniors, often have both obvious and hidden health problems, and these problems may become irritated. Young pets and/or severely matted pets can experience some distress from clipping, brushing, or from being away from home. Pets that are severely matted are at a much higher risk of receiving nicks, cuts, or being clipper burned. Your groomer will use every reasonable effort to ensure that this does not occur. If such an accident should occur, there may be additional charges for veterinary services rendered. Your groomer will inform you of any complications. Your groomer fee will reflect charges according to the amount of difficulty and time spent with your pet. We ask clients to notify their groomer immediately should any excessive discomfort persist after their pet's groom. In the event of an emergency, by signing below, the owner/agent authorizes this establishment to provide necessary treatment for their pet. We reserve the right to refuse service on any animal, and we use a "three strikes and you are out" policy. NO animal shall be tranquilized or sedated without the owner/agent granting permission in writing and with prearranged notification between the groomer, veterinarian, and the owner/agent. Sedation shall be administered by a veterinarian only. Thank you for entrusting us with the care of your special pet.*
